Sir:

Now comes Applicant and submits herewith a Supplemental Rule 132 Declaration of Samir Tahan in support of patentability for the above-captioned case.

This submitted Declaration appears as Appendix A attached hereto.

The Declaration was supplied in connection with the Examiner's stated view that evidence of the reduction to practice did not include a statement that the witnessed reduction to practice support patient information being wirelessly uploaded from a remote site to a global database.

Applicant hereby provides such a Declaration in the form of a statement from a witness who saw this remote uploading.

Allowance of the claims and issuance of the case is therefore earnestly solicited.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Robert K. Tandler', written over a horizontal line.
